

The **DivaCup™** is a modern, leading-edge menstrual cup and offers an alternative to tampons and pads—clean, easy-to-use and completely reliable. No leaks.

- Soft, durable cup is made from silicone that is latex free and chlorine free
- Accommodates changing flow; simply empty 2 to 3 times daily and reinsert
- Offers 12 hour protection and can be worn confidently overnight
- Feminine hygiene disposal is a problem worldwide: Over 12 billion sanitary pads and 7 billion tampons are dumped into landfills in the U.S. alone each year
- DivaCup is reusable, economical and helps counter the negative eco-effect of disposable feminine hygiene products
- 2 models have been developed to meet the needs of every woman: Model 1 is for women under 30 years old who have never delivered vaginally or by C-section
- \$38 each at REI (May 2010)
